

Why You Should Join The Creativity Movement

Now, fellow White Brother or Sister, after feeding a minuscule amount of truth into your subconscious, we can understand if you feel confused. You may feel in some way betrayed, for these truths were ignored in your upbringing, even though they were the most important truths you could have learned. You may feel confused, because you don't remember how your natural racial instinct was stripped away at a young age, and how hatred against your own species was placed in its stead.

But now, after you vision some light at a distance, when the horizon seems to brighten and our religion, Creativity, seems to be the source, you ask yourself: Why should I join? Why should I inquire further? Is being aware of some facts enough for my survival? The answer is NO!

If every White man, woman, and child, after returning to the path of Nature, did join with our Church, this Church will be the one that our children will educate themselves in! It will be the Church where all surrounding families will come together as one every Sunday service! Our church will turn all other churches into vacant lots where once gullibility flourished and our children were corrupted.

Why should you join the The Creativity Movement? Look around you. Look at your loved ones-your wife or husband, your son or daughter, your mother and father. Don't they deserve a future? Don't they deserve a land in which they can feel proud and safe? Don't they deserve the best you can provide for them?

Brother, sister-joining with us is the step, THE major contribution to your kind, for when half the White people unites with us, our WHITE RENAISSANCE will begin! By joining with The Creativity Movement, you will be taking an active part in insuring that our people remain on this earth, that your family and descendent's of your family will live a good life, free from the crime and chaos that is a direct result of the part to take back your country, once and for all.

WHEN EVERY White Brother and Sister read and lives by our two Holy Books, **Nature's Eternal Religion** and **The White man's Bible**, our White Race will be saved.

So it is in this historical time that you find yourself. And your ancestral duty is to do what is right-for yourself, your family, and your future progeny. Together we will attain a Whiter and Brighter world!
